Chemical Geology (Isotope Geoscience Section), 94 (1992) 331–332
Elsevier Science Publishers B.V., Amsterdam

Contents Volume 94, 1991/1992

Research Papers

Precise measurement of cerium isotope composition in rock samples
A. Makishima and E. Nakamura (Misasa, Japan) 1
High-precision multicollector isotopic analysis of low levels of Nd as oxide
M.F. Thirlwall (Egham, U.K.) 13
A Pb, Sr and Nd isotope study of the basement and Mesozoic ring complexes of the Jos Plateau, Nigeria
A.P. Dickin, A.N. Halliday (Glasgow, U.K.) and P. Bowden (Fife, U.K.) 23
Depth profiles of $^{230}Th_{excess}$, transition metals and mineralogy of ferromanganese crusts of the Central Indian basin and implications for palaeoceanographic influence on crust genesis
V.K. Banakar and D.V. Borole (Goa, India) 33
Measurement of the hydrogen and oxygen isotopic compositions of concentrated chloride brines and brines from fluid inclusions in halite
G.D. Koehler, D. Chipley and T.K. Kyser (Saskatoon, Sask., Canada) 45
Analysis of $\delta^{13}C$ and $\delta^{18}O$ in calcite, dolomite, rhodochrosite and siderite using a laser extraction system
M.D. Powell and T.K. Kyser (Saskatoon, Sask., Canada) 55
Environmental and physiological influences on isotopic and elemental compositions of brachiopod shell calcite: Implications for the isotopic evolution of Paleozoic oceans
N.R. Bates (St. Catharines, Ont., Canada) and U. Brand (Hamilton, Ont., Canada) 67

Technical Note

Extraction of low-level sulphide from groundwaters for sulphur isotope analysis
S.J. Moncaster (Birmingham, U.K.) and S.H. Bottrell (Leeds, U.K.) 79

Publisher's Note 83

Research Papers

Long-term reproducibility of multicollector Sr and Nd isotope ratio analysis
M.F. Thirlwall (Egham, U.K.) 85
Calibration of Faraday cup efficiency in a multicollector mass spectrometer
A. Makishima and E. Nakamura (Misasa, Japan) 105
Boron isotope systematics of hydrothermal fluids and tourmalines: A synthesis
M.R. Palmer (Bristol, U.K.) 111
Tritium in the thermal waters discharging in Loowit Canyon, Mount St. Helens, Washington, U.S.A.
L. Shevenell (Oak Ridge, Tenn., U.S.A.) 123
An improved microextraction technique for measuring dissolved inorganic carbon (DIC), $\delta^{13}C_{DIC}$ and $\delta^{18}O_{H_2O}$ from milliliter-size water samples
E.R. Graber and P. Aharon (Baton Rouge, La., U.S.A.) 137
The use of stable isotopes of water in characterising the source of water in vegetation
C.D. Walker (Glen Osmond, S.A., Australia) and S.B. Richardson (Glen Osmond and Bedford Park, S.A., Australia) 145

Book Review

Isotopes in the Earth Sciences, by R. Bowen – M. Schidlowski 159

Research Papers

Uranium/thorium dating of Late Pleistocene peat deposits in NW Europe, uranium/thorium isotope systematics and open-system behaviour of peat layers
H. Heijnis and J. van der Plicht (Groningen, The Netherlands) 161
^{210}Pb, ^{226}Ra and ^{32}Si in Pavin lake (Massif Central, France)
J-M. Martin, M. Meybeck (Montrouge, France), V.N. Nijampurkar and B.L.K. Somayajulu (Ahmedabad, India) 173
A 16-Ma record of paleodiet using carbon and oxygen isotopes in fossil teeth from Pakistan
J. Quade, T.E. Cerling (Salt Lake City, Utah, U.S.A.), J.C. Barry, M.E. Morgan, D.R. Pilbeam (Cambridge, Mass., U.S.A.), A.R. Chivas (Canberra, A.C.T., Australia), J.A. Lee-Thorp and N.J. van der Merwe (Rondebosch, South Africa) 183
Precise boron isotopic analysis of natural rock samples using a boron–mannitol complex
E. Nakamura, T. Ishikawa (Misasa, Japan), J-L. Birck and C.J. Allègre (Paris, France) 193
Isotopic composition of salt crusts in Saskatchewan, Canada
G.N. Dowuona, A.R. Mermut (Saskatoon, Sask., Canada) and H.R. Krouse (Calgary, Alta., Canada) 205
Stable isotope compositions of tourmalines from granites and related hydrothermal rocks of the Karagwe-Ankolean belt, northwest Tanzania
R.P. Taylor (Glasgow, U.K., and Ottawa, Ont., Canada), J.R. Ikingura (Ottawa, Ont., Canada), A.E. Fallick (Glasgow, U.K.), Y. Huang (Glasgow, U.K., and Jilin, People's Republic of China) and D.H. Watkinson (Ottawa, Ont., Canada) 215
Noble gases and nitrogen in natural gases from Gujarat, India
S.V.S. Murty (Ahmedabad, India) 229

Discussion

The statistical distribution of the mean squared weighted deviation – Comment: Isochrons, errorchrons, and the use of MSWD-values
F. Kalsbeek (Copenhagen, Denmark) 241
The statistical distribution of the mean squared weighted deviation – Reply
I. Wendt (Hannover, Federal Republic of Germany) 242

Book Review

Applied Isotope Hydrology – A Case Study in Northern Switzerland, by F.J. Pearson, Jr., W. Balderer, H.H. Loosli, B.E. Lehmann, A. Matter, Tj. Peters, H. Schmasmann and A. Gautschi (Editors) – L.I. Wassenaar 245

Guide for Authors

Research Papers

A new model for the origin of the anomalous radioactivity in Niue Island (South Pacific) soils
N.E. Whitehead, R.G. Ditchburn, W.J. McCabe and P. Rankin (Lower Hutt, New Zealand) 247
U–Th–Ph isotope study of mafic dykes in the Superior Province, Ontario, Canada: uniformity of initial Pb isotope ratios of the Hearst dykes
P.E. Smith, R.M. Farquhar (Toronto, Ont., Canada) and H.C. Halls (Mississauga, Ont., Canada) 261
Discrepancies between neodymium, lead and strontium model ages from the Precambrian of southern East Greenland: Evidence for a Proterozoic granulite-facies event affecting Archaean gneisses
P.N. Taylor (Oxford, U.K.), F. Kalsbeek and D. Bridgwater (Copenhagen, Denmark) 281
Oxygen and carbon isotope patterns in the Dicker Willem carbonatite complex, southern Namibia
D.L. Reid (Rondebosch, South Africa) and A.F. Cooper (Dunedin, New Zealand) 293
Isotopic composition of vein calcite and its fluid inclusions: Implication to paleohydrological systems, tectonic events and vein formation processes
A. Shemesh (Rehovot, Israel), H. Ron (Holon, Israel), Y. Erel (Pasadena, Calif., U.S.A.), Y. Kolodny (Jerusalem, Israel) and A. Nur (Stanford, Calif., U.S.A.) 307

Mathematical simulation of the carbon isotopic fractionation between huminitic coals and related methane
U. Berner, E. Faber and W. Stahl (Hannover, Germany) 315
Origin of light hydrocarbon gases from the Matsukawa geothermal area in Japan
Y. Kiyosu, N. Asada (Nagoya, Japan) and Y. Yoshida (Iwate, Japan) 321

Contents Volume 94, 1991/1992 331
